GIT	MySQL	Groovy	Django	Flask
PostgreSQL	XML	Linux	JQuery	SCSS
ReactJS	VueJS	MOQUI-Framework	PyGame	
Restful API	MS Office	Numpy	Agile Methods	

EXPERIENCE

Software Developer

Pythys Software – Kuwait, Kuwait

📅 March 2021 - Ongoing

- Modified existing software to correct coding errors, upgrade interfaces and improve overall performance.
- Worked on creating different websites, from e-commerce to live streaming websites, using Java, Groovy, XML, PostgreSQL, ElasticSearch.
- Worked closely with clients to collect requirements and ensure project quality.

Contact Mr Taher Alkhateeb +965 66561888

Python Developer (Internship)

StarLabs Inc. - Pristina, Kosovo

📅 Feb 2021 - May 2021

- Completed a four month internship with the python team at StarLabs where I helped on designing and developing a question and answer platform for students in Kosovo.
- Helped on designing database models and developing the backend with the latest technologies(Python, Django, PostgreSQL)

*Contact Mr Gentian Demaj gentiani101@gmail.com*

Software Developer (Freelance)

UpWork, PieceX

📅 Jan 2020 - Nov 2020

- Developed a hospital medication management website using technologies - Python, Django, JavaScript, HTML & CSS and MySQL.
- Worked on an e-commerce website for fashion using image recognition to display recommended clothes to the users. Technologies that were used - Python, Django, OpenCV, Pillow, JavaScript, HTML & CSS and MySQL.
- Sold three of my games on PieceX, "Tower War Game", "Space Invaders", "Dinosaur Game" that I developed using Python, Pygame and Turtle.
